# 4MOVE ON ICE

---

Welcome to our eleventh winter of winter adventures!

Trails, chalet, toy box, partners, simplified travel,  
as we do every year, we're ready to get to work as soon as the  
sun rises.

Extraordinary experience the following winter.

Our leitmotiv : to offer a unique space of freedom and  
conviviality, dedicated to  
the art of the fine gesture of car driving ...

Here's an overview of our driving programs and our exceptional  
fleet of sports and rally cars. Please visit our website or contact  
us directly to organize your stay in Lapland.

We look forward to seeing you in from January to march 2025 !

Jean-Christophe David

# CARS

---

The 20 sports cars we put at your disposal are specifically prepared, prepared, tuned and protected for driving on snow and ice.

The technical challenge is considerable, but justified. will enable you to fully appreciate the diversity of architectures, behaviors and whatever your expectations and religion !

PORSCHE 911 GT3, 718 GT4RS, Cayman GT4, 911 Classic 3.2  
ALPINE A110, FORD Mustang V8 and Escort RS Mk1, Nissan 370Z, M3 3.2, Toyota  
GT86 and GR86GR Yaris,  
SUBARU Impreza GT et WRX, MITSUBISHI Evo 9 and Evo 6 Gr.A

# TRACKS

---

Our slopes, located just a few minutes from Arvidsjaur, enjoy a secluded and enchanting setting. Originally based in Arjeplog, we've moved closer to the airports to make your trip easier. Protected from the prevailing winds by the relief, the lake is technically perfect for runway construction, and offers a visually striking environment.

The flying center boasts over 7 km of runways, with a large training area, combinable circles, and 3 circuits of increasing difficulty and speed. With over 12 configurations in total and a 6km super special, the driving experience is as rich in challenges as it is in adrenalin.
